(54) CARBONATED WATER PRODUCTION APPARATUS AND CARBONATED WATER PRODUCTION METHOD USING IT

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a carbonated water production apparatus capable of effectively providing carbonated water of high concentration by a simple structure and technique, and a production method therefor.

SOLUTION: A carbon dioxide gas is dissolved in water through a first carbon dioxide gas dissolving device (7)

formed by a membrane module, and the carbonated water passed through the first carbon dioxide gas dissolving device (7) is passed through a static mixer (13), which is a second carbon dioxide gas dissolving device.

LEGAL STATUS

[Date of request for examination] 10.12.2004

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]
